| <div>Anonymous:</div> <div>'Dr. Broderick was a pleasure to work with- he is very knowledgeable and practices good, evidence-based medicine. He loves to teach and is very receptive to the opinions of all members of his team. Allows residents to make thoughtful and safe decisions regarding patient care. Excellent addition to the RWJ faculty, hope to work with him again in the future!'</div> |                       |              |         |         |                    |

|  <b>Anonymous:</b><br>'Excellent clinician and role model. Helped when appropriate but allowed for autonomy in patient care. Taught extremely often and very knowledgeable. Always a great week working with Dr. Broderick.'                                                                                                                                                                                                                                                                                                                                                                                                                             |         |              |         |         |                    |
|  <b>Anonymous:</b><br>'Dr. Broderick was a fantastic attending. I very much enjoyed his integrated teaching points as we discussed patients. He encouraged me to critical think and adjust treatment management on a daily basis which provided a well-rounded approach to patient care. He has exceptional rapport with patients, and I hope to embody his qualities in the future. He allowed autonomy in decision making with good feedback. He created a fantastic team environment, where asking questions was encouraged which I appreciated. I would very much enjoy if he is on floors more often and I look forward to working with him again!' |         |              |         |         |                    |
