Additional Comments or Feedback (please be direct, specific, and constructive)

Worksheet was helpful as an aide and during the talk, the possibility of refining teaching philosophy after building the portfolio at the end was mentioned so that could be added to the worksheet

Really appreciate this interesting and unique workshop

Helpful to start building a framework for an educator portfolio. Also helped to inspire ideas that we can build on the help improve our teaching styles

Can give examples of each section of the educator portfolio to help understand what is expected

I think the first part was helpful in forcing us to write something down and force us to start somewhere.

Great as always.

Very helpful!
